

# STD-98 Twice As Sharp® Scissor Sharpening System

The STD-98 standard scissor sharpening system is designed to make sharpening sewing shears fast, easy, and precise. Comes equipped with a 100 grit sharpening wheel (A-1/27000) so you can sharpen your shear quickly, a buffing wheel (A-1/25000) to clean up your edge, an arm and clamp assembly that can be set to match all possible angles on any shears up to 14" in length, an in-depth manual that lists many of the best angles for different styles of shears, and a comprehensive training video that will walk you through the steps of sharpening numerous shears. The STD-98 Twice As Sharp® allows you to confidently sharpen any shear to the exact angle best suited to your application!

Also Available  
in 220V
