Part #	Cu. Ft.	Outside Dimensions		Depth (inside)	Overall Height	Caster size
		Length	Width			
516301	42	50	41	42	51	6
516302	42	52	43	38	46	6

Dimensions are approximate - rounded to full inch. Available in choice of colors. Two dividers can make one full height partition or two half height partitions on the 6301. One divider makes one full height partition on the 6302. Two Dividers store inside truck. When ordering specify color and number of dividers and drain holes if applicable. Custom sizes, construction, casters or configurations are available. Please inquire.

Increase your flexibility with DANDUX products:

The Dandux Dividable Textile Truck can give you the increased flexibility you've been looking for in your quest for agile manufacturing. One truck that divides from full; to half; to thirds without tools, without hardware, and without time consuming change over. One truck with the versatility to effectively handle from 8" to 36" fabric, in individual compartments. Two dividers can be stored inside truck, making changeover easy and efficient.

By combining the strength and durability of a double upper wall with the efficiency of a single lower wall this one piece rotationally molded truck provides you with the ability to effectively handle heavy wet or dry loads. Lower center side configuration allows for ease of access. Sure-track diamond caster pattern is standard.
