

Pocket sized Versatility

SS-6C-EM-LAN Stainless Steel Pocket Ruler

▲ ACTUAL SIZE OF RULER
Acid Etched Marking for Accuracy

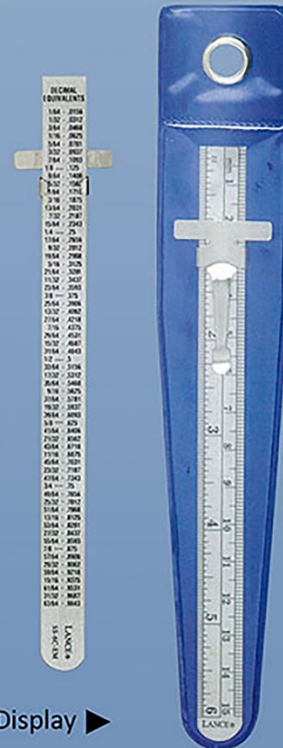

This Lance® Pocket Ruler is made from a high grade flexible stainless steel. The markings are in millimeters and centimeters on top and inches on the bottom. They are acid etched for superior accuracy when measuring. The reverse side of the ruler has a convenient table of decimal equivalents from 1/64" to 63/64". It's a handy tool for anyone to carry!

The Lance® Pocket Ruler measures 6 1/4" long overall and 7/16" wide and comes complete with a handy pocket clip. The bottom of the ruler is rounded to eliminate sharp, pocket tearing corners and come Individually packaged in a plastic sleeve for high visibility display.

Packaging: Each ruler is packaged in a blue-backed, clear front PVC pouch with a rivet hang hole. One dozen rulers to a box, 24 dozen to a carton.
