

Pinking Shears

Pinking Shears feature notched, sawtooth blades that leave a zig-zag pattern along your fabric edge. This limits the length of frayed threads to help prevent unraveling. These 9 1/2" Pinking Shears have stainless steel blades and an ergonomic handle. They can also be used with ribbon, paper and other materials to add decorative edging.

Sawtooth blades leave a zig-zag pattern in fabric to help prevent fraying.

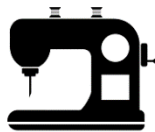

High-grade stainless steel blades feature an approximately 3" cutting length.

Can be used with ribbon, paper and other materials to add decorative edging to crafts and projects.

Ergonomically sculpted handle provides unmatched cutting control and comfort.
