

DANDUX STANDARD DUTY TILT TRUCK

PRODUCT SHEET

OVERVIEW

Dandux industrial strength Standard Duty Tilt Trucks (52-2000 Series) save time, effort and money when moving bulk items. Used for trash collection, part movement, wood or metal chips, bulk powders and solids, slurries and food products.

STANDARD FEATURES

- ❖ The large capacity body has an ergonomically designed slanted front for easy dumping.
- ❖ Body is rotationally molded as a one piece seamless unit from high quality polyethylene resin.
- ❖ Frames are constructed from rust resistant powder coated tubular steel for extreme strength and durability.
- ❖ Equipped with front, back, and upper lip reinforcement, plus push bar
- ❖ High quality 3" or 4" casters and 10" or 12" wheels (varies by size and model selection)
