MODEL CM-2000
SWATCH CUTTER

Properly cut sample swatches are an attractive and ravel-resistant sales aid.
"A neat and accurately cut sample swatch may be your best salesman."

The CM-2000 is a high volume, power swatch cutter designed to cut all types of fabrics.

Features:

- Far superior operation compared to manual Swatch Cutters.
- Low current consumption
- Quiet operation
- Convenient ruled-out work area
- Runs on 115 VAC power.

Safety features include:

- Anti tie down relays
- Reversing switches to help unstick a blade jam in tough fabric.
- Micro switches
- Microprocessor-based safety system.

Specifications:

- Table size: 24½" x 48" Easily cuts 20 inches [50cm] width material
- Motor: Standard = 1 HP [available option: Heavy Duty 1½ HP]
- Knife Height: 1½" lift [available option: 2" or 3" lift]
- Blades: Standard = #7 pink [available option: Straight bevel or #1 pink]

The CM-2000 is shipped complete with a # 7 Pink Knife
