

Kennedy Robotics AI, LLC
Capability Statement

Company Overview:

Kennedy Robotics AI is a leading provider of advanced robotics and artificial intelligence solutions, specializing in the design, development, and deployment of autonomous systems for various industries.

Core Competencies:

- **Robotics Engineering:** Expertise in creating autonomous robots tailored to specific industry needs.
- **Artificial Intelligence Integration:** Implementing AI algorithms to enhance robot decision-making and adaptability.
- **System Integration:** Seamlessly incorporating robotic solutions into existing operational workflows.
- **Maintenance and Support:** Offering comprehensive services to ensure optimal performance and longevity of robotic systems.

Differentiators:

- **Innovative Design:** Commitment to cutting-edge technology and continuous innovation.
- **Customization:** Ability to tailor solutions to meet unique client requirements.
- **Proven Track Record:** Successful deployment of autonomous systems across diverse sectors.
- **Client-Centric Approach:** Focus on understanding and addressing specific client challenges.

Past Performance:

- **Manufacturing Sector:** Enhanced production efficiency through the deployment of autonomous robots.
- **Logistics Industry:** Streamlined supply chain operations with AI-driven robotic solutions.
- **Healthcare Field:** Improved patient care and operational workflows via robotic assistance.

Corporate Data:

- **Company Name:** Kennedy Robotics AI, LLC
- **Year Established:** 2024
- **D-U-N-S Number:** 119326871
- **NAICS Codes:** 541330, 423830, 541511, 333992, 333922, 423850, 336360
- **Contact Information:** KEVIN J. KENNEDY (Founder/ Owner)
- **Email:** kevin@kennedyrobotics.ai
- **Phone:** 864-921-4924
- **Location:** 236 Mansfield Drive, Spartanburg, SC 29307 (USA)
